- Click on the camera icon top right of your screen to save any slides for future reference
- Use the Q & A area on your screen to type in questions

VEH102: Advanced Vehicle Technology Equipment, Supplies and Services

Description or Purpose of Procurement

The Commonwealth of Massachusetts, represented by the Operational Services Division (OSD) and the Department of Energy Resources (DOER), and the Metropolitan Area Planning Council (MAPC) are soliciting Bidders for the acquisition of a wide range of Advanced Vehicle Technology (AVT) equipment, supplies and services including Electric Vehicle Supply Equipment (EVSE), Anti-Idling technologies, and After-market conversion technologies. The aim of this RFR is to award multiple vendors per category. Users are required to solicit multiple quotes from awarded vendors.

VEH102: Advanced Vehicle Technology Equipment, Supplies and Services

Brief Overview of Contract Service Categories

Service Category 1: Electric Vehicle Supply Equipment (EVSE), Hardware, Software, and Ancillary Services

Provide Electric Vehicle Supply Equipment, hardware, software and ancillary services to eligible public entities.

Service Category 2: Idle Reduction Technologies for Heavy, Medium, and Light Duty Vehicles; and Heavy Duty Equipment

Provide Idle Reduction Technologies for – Heavy Duty Vehicles and Equipment, Medium Duty Vehicle, Light Duty Vehicle Categories.

Service Category 3: After-market conversion technologies– all vehicle classes

Provide after-market conversion systems modify vehicles and engines so that they can run on – or be supplemented by – fuels or technologies other than the ones for which they were originally designed.
